Models

Item: WD-50-200

Thickness: 1.0-2.5mm

Depth 50mm* R64*R61*Distance 200mm* Length 3000mm

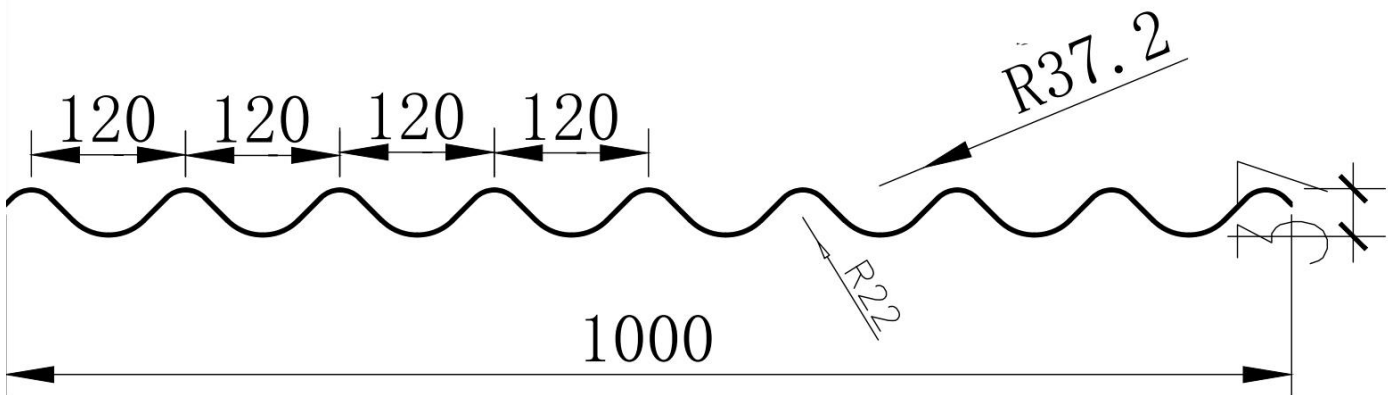

Open size: 1171mm/85%

Item: WD-37-120

Thickness: 1.0-2.5mm

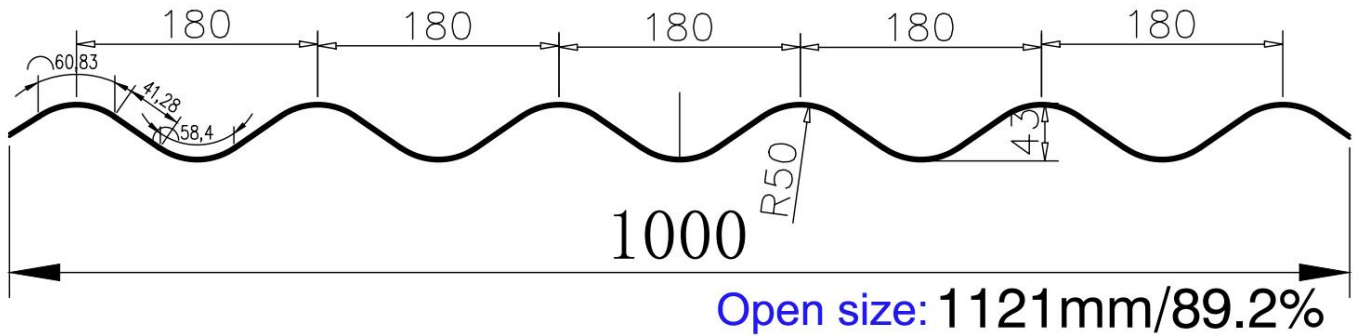

Depth 37mm* R22*Distance 120mm* Length 1800mm

Open size: 1198mm/83.5%

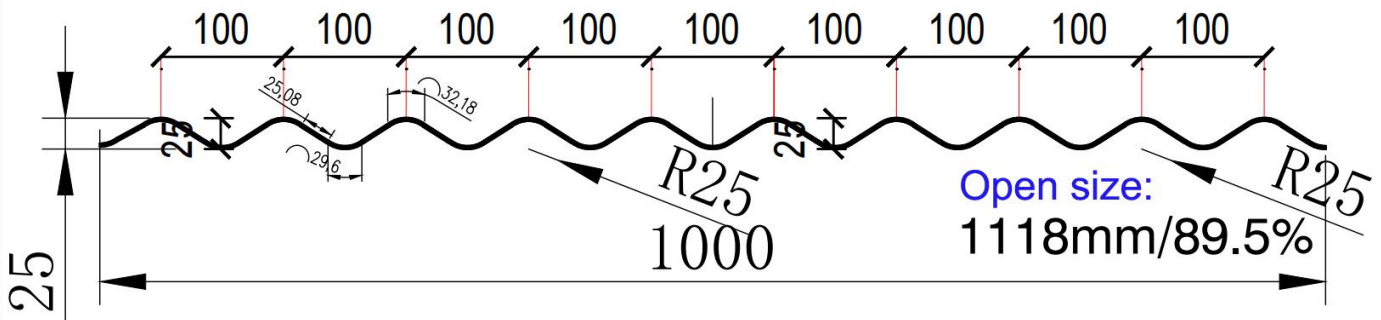

Item: WD-43-180	Thickness: 1.0-2.5mm
-----------------	----------------------

Depth 43mm* R50*Distance 180mm* Length 3000mm

Item: WD-25-100	Thickness: 1.0-2.5mm
-----------------	----------------------

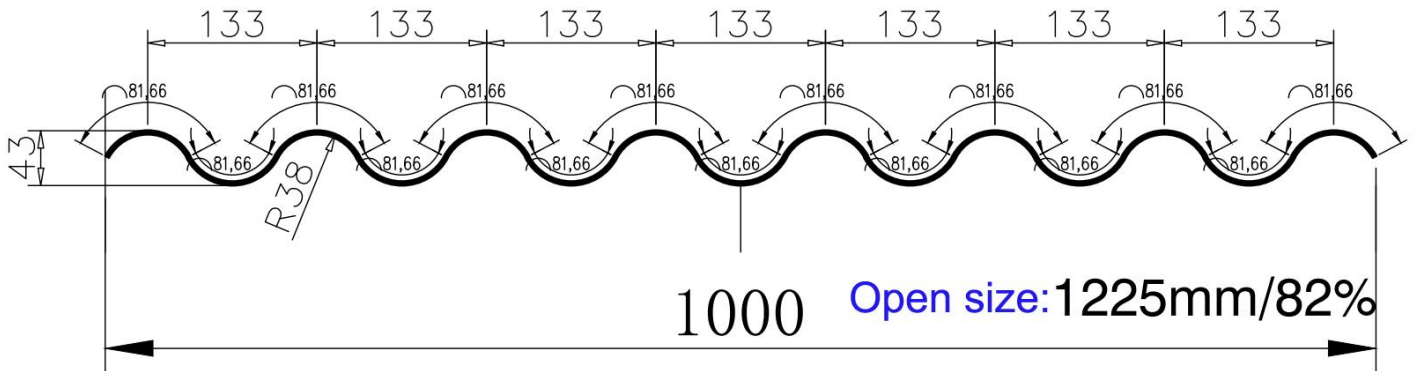

Depth 25mm* R25*Distance 100mm* Length 3000mm

Item: WD-43-133

Thickness: 1.0-2.5mm

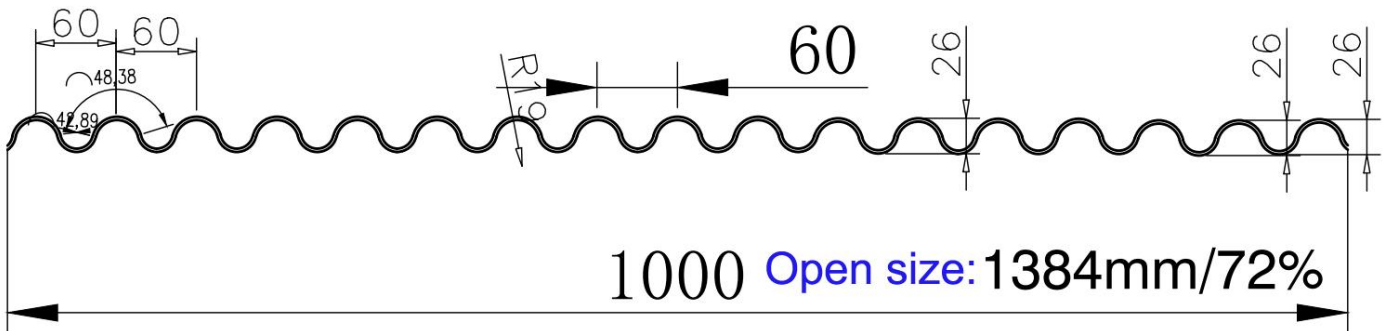

Depth 43mm* R38*Distance 133mm* Length 1800mm

Item: WD-26-60

Thickness: 1.0-2.5mm

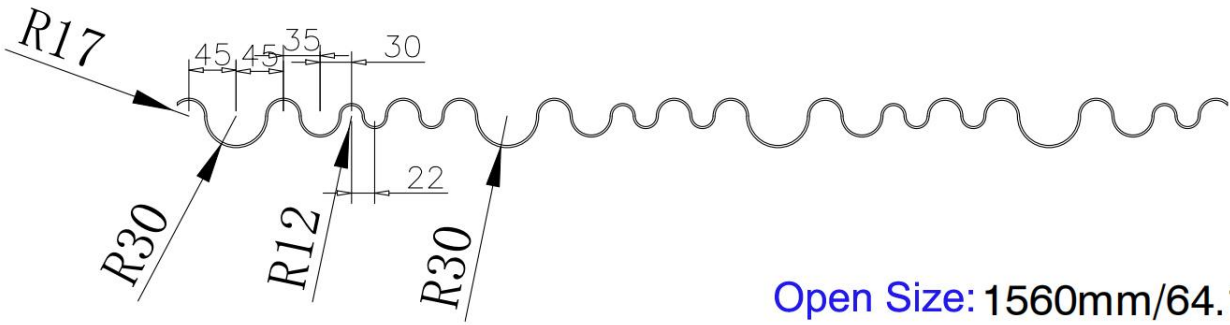

Depth 26mm* R19**Distance 60mm* Length 2900mm

Item: WD-30

Thickness: 1.0-2.5mm

Length 2000mm

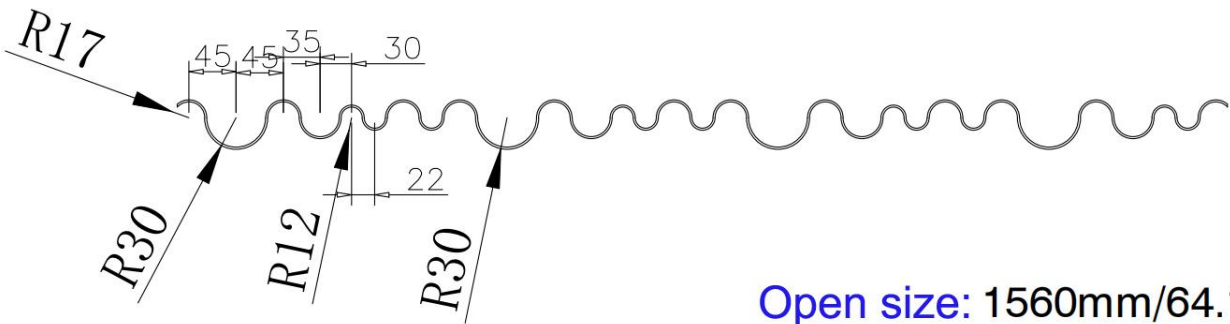

Open Size: 1560mm/64.1%

Item: WD-17-30

Thickness: 1.0-2.5mm

R17* R30*R12* R30* Length 2000mm

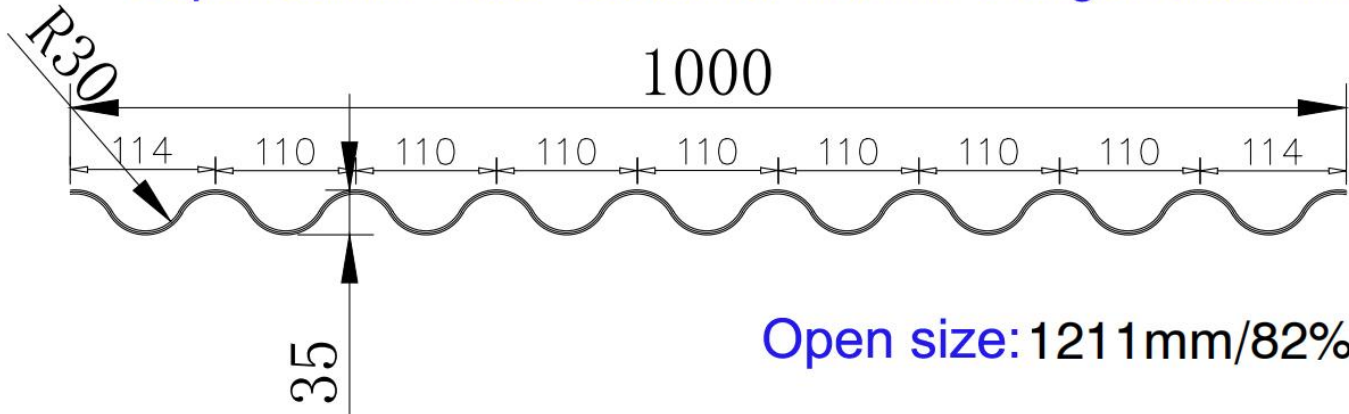

Open size: 1560mm/64.1%

Item: WD-35-110

Thickness: 1.0-2.5mm

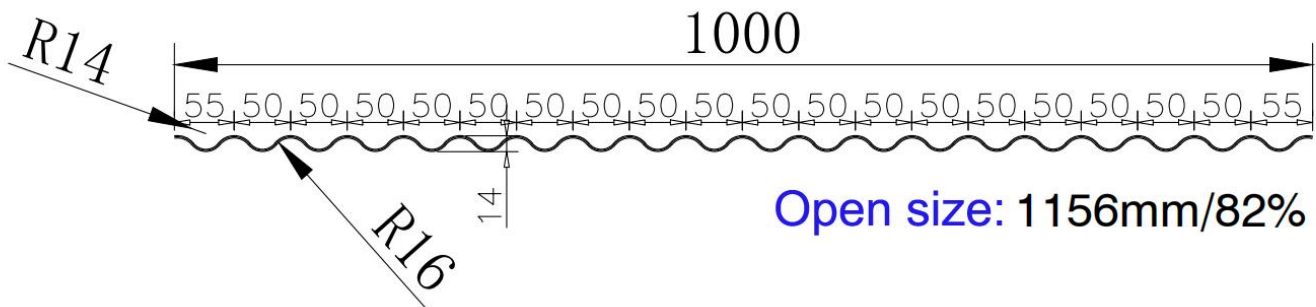

Depth 35mm* R30**Distance 110mm* Length 3100mm

Item: WD-14-50

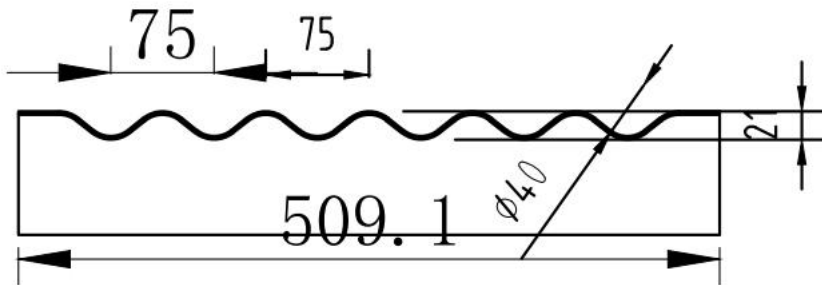

Thickness: 1.0-2.5mm

Depth 14mm* R30*R16*Distance 50mm* Length 4000mm

Item: WD-75

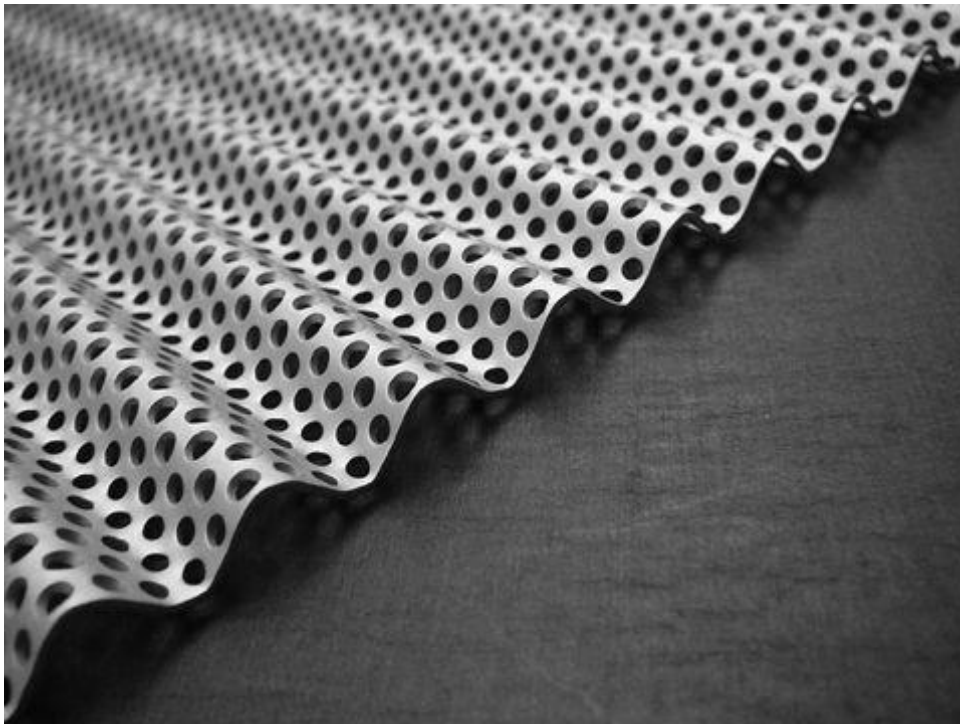

Thickness: 1.0-2.5mm

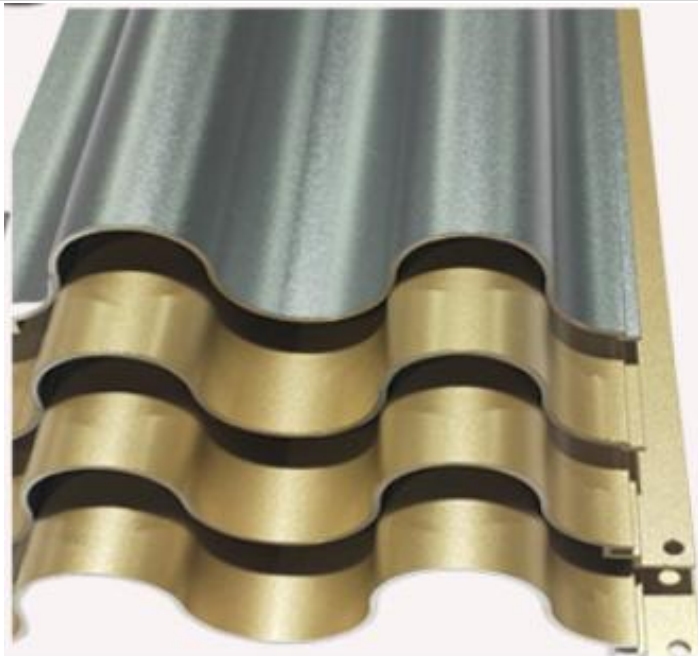

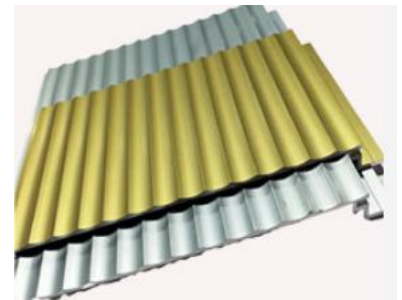

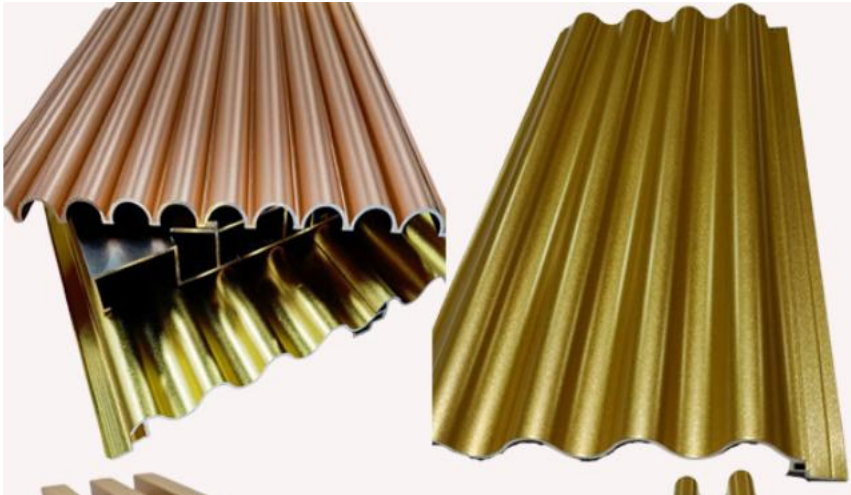

Max Length: 1500mm

Application:

Hotel, Villa, Apartment, Office Building, Hospital, School, Mall, Shops, casino, club, restaurant, shopping mall, exhibition hall

Corrugated Perforated Metal Panels—Customized Arbitrary Patterns and Flexible Application

Corrugated perforated metal panel is the newest and most exciting product for architecture and industry application. As to Corrugated perforated panels, no matter it is basic or complex, standard or custom, we offer perforation patterns to suit any decorative or functional requirement. Applications of Corrugated perforated panels include solar shading, light and sound, solution control, security screening, and screens for roof top mechanical equipment. Architects, engineers and design professionals often choose corrugated perforated metal for their building projects, used for Ceiling Panels, Architecture Facades and self-climbing safety platforms.

RAW MATERIAL

Materials of perforated metal decides its performance in various industrial applications, we need to choose the right material for best performance and greatest advantage.

Carbon Steel Plates. Q195, SPCC, Q235B

Stainless Steel Plates. 304, 304L, 316, 316L, 321, 310S

Aluminum Alloy Plates. 1060, 3003, 5052

Pre-galvanized Steel Plate

SURFACE FINISHING

Aluwedo offers multiple surface treatment options for different commercial and industrial applications for corrugated perforated metal panels.

Powder coating

PVDF coating

Anodic oxidation

And more surface treatment

Technical Parameters

Products Standards

HOLES PATTERNS

Not limited, as same as plain perforated metal sheet.

THICKNESS

As required

WIDTH

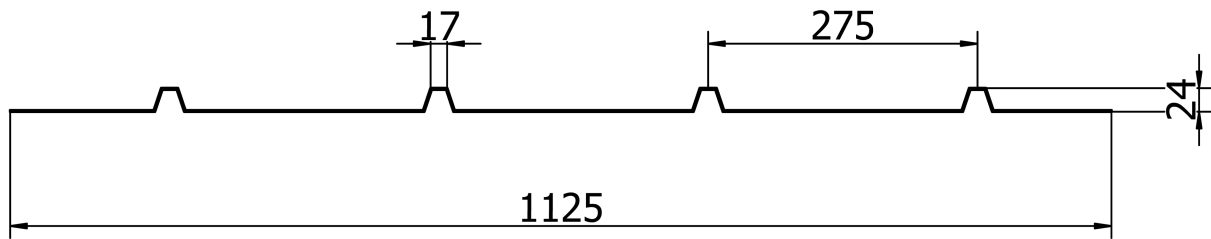

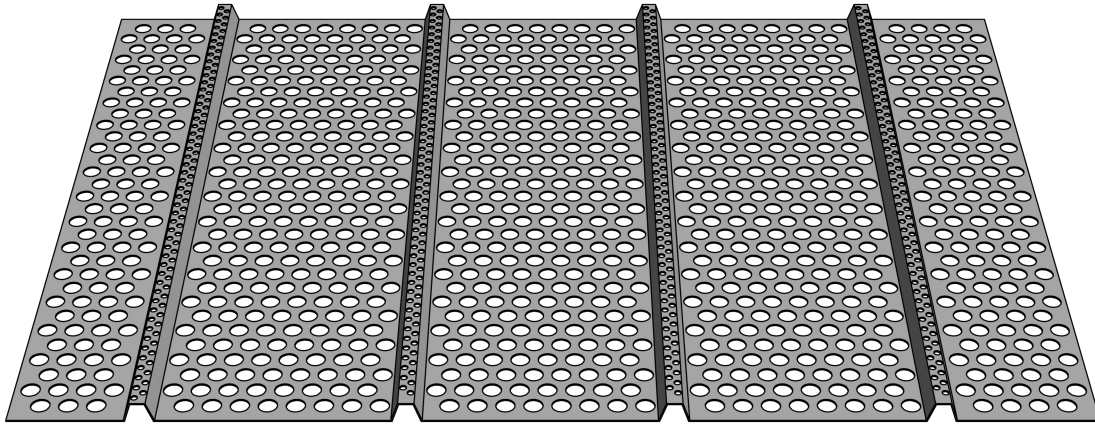

As required

LENGTH

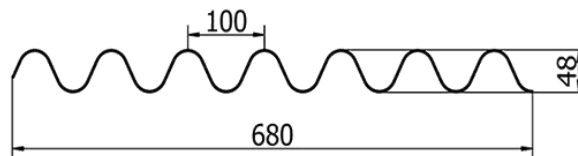

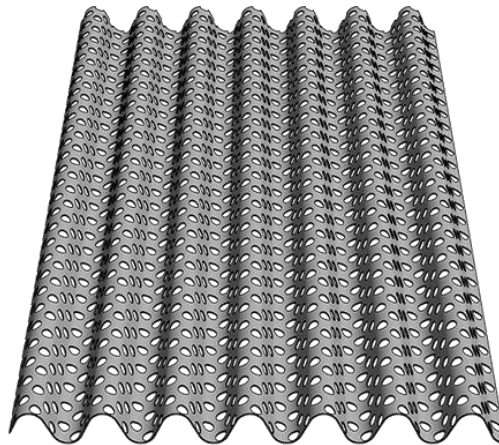

As required

Notes: designing the Corrugated Section Profiles shall consider the raw material plate width limited and not wasting material

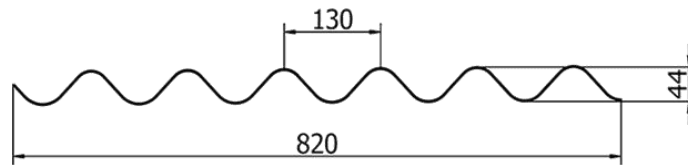

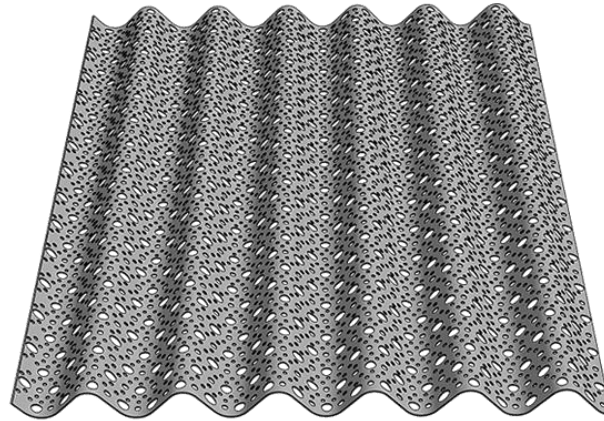

Item: WD-17/275-1125

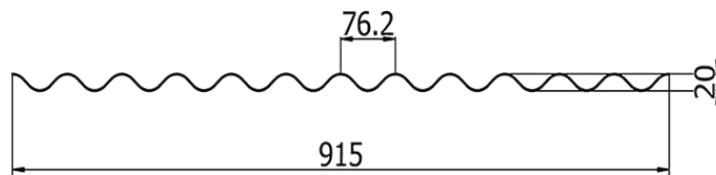

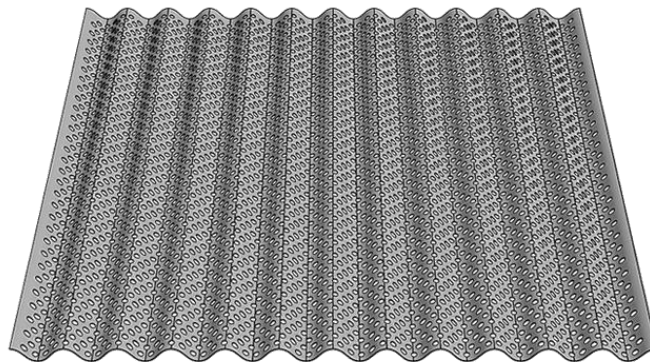

Item: WD-48/100-680

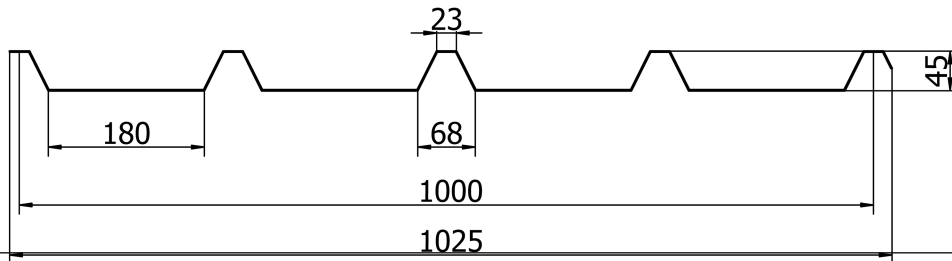

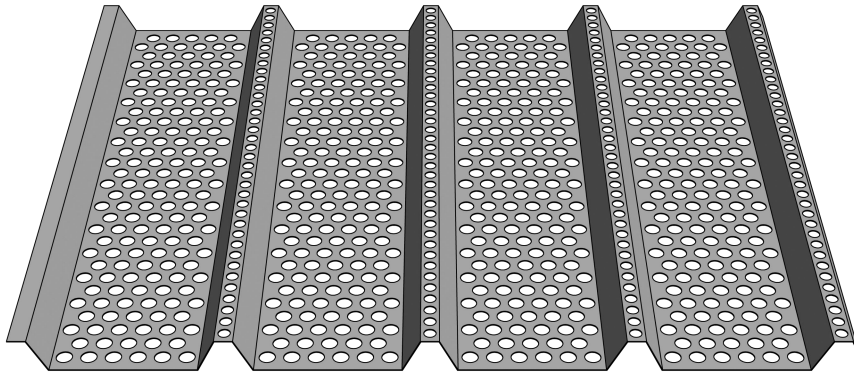

Item: WD-44/130-820

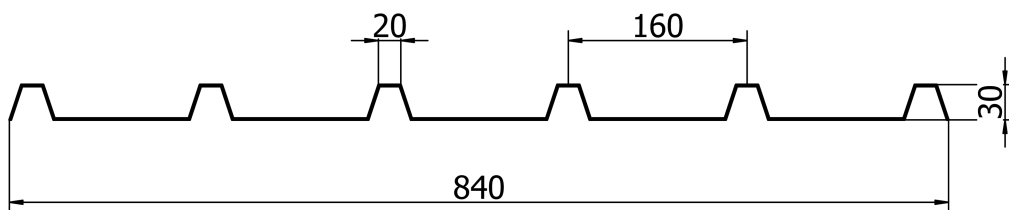

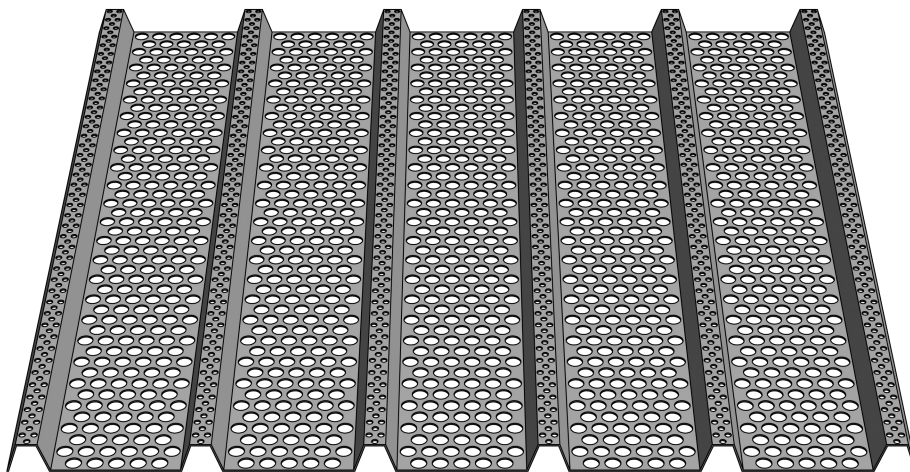

Item: WD-20/76.2-915

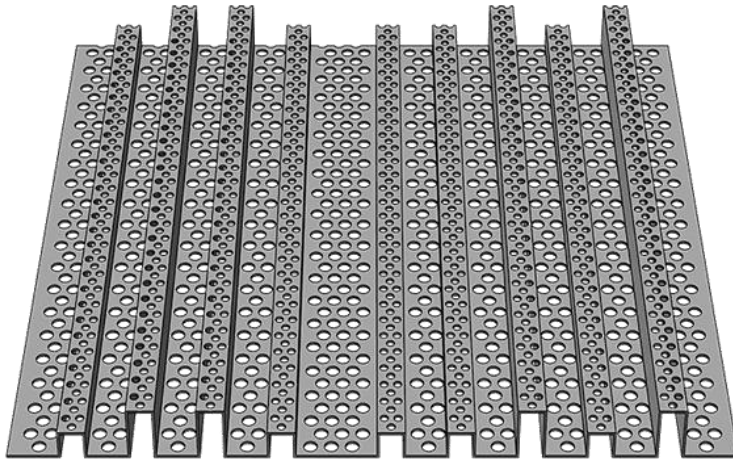

Item: WD-23/68-1000

Item: WD-20/160-840

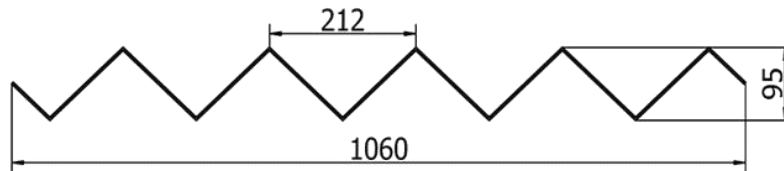

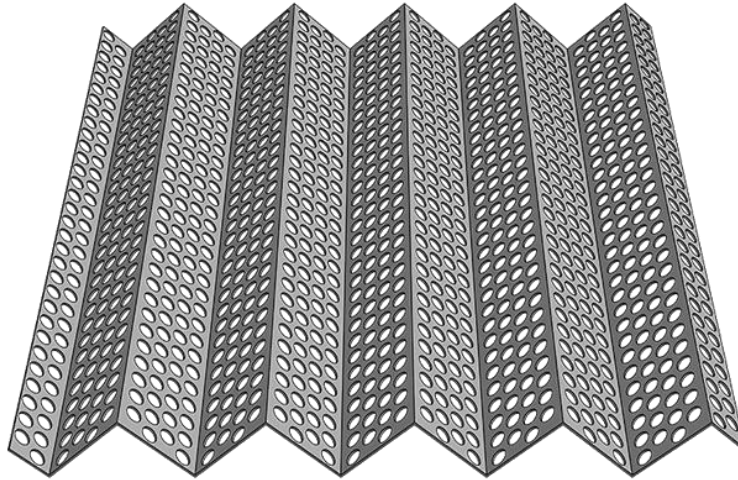

Item: WD-20-525

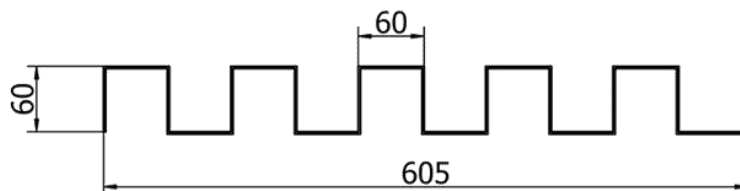

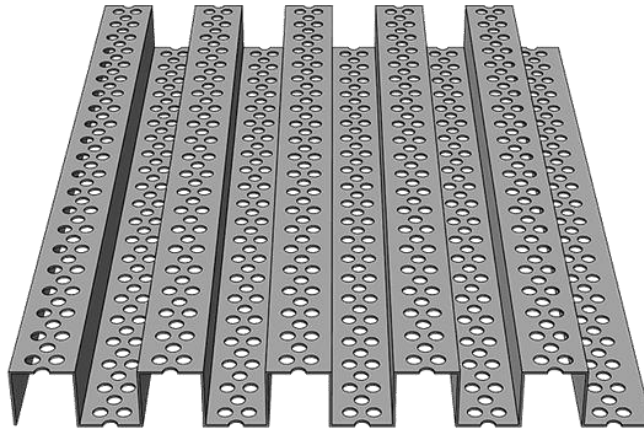

Perforated OEM

Item: WD-95/212-1060

Item: WD-60-605

Corrugated perforated metal wall facade

Corrugated perforated alu. sheet wall cladding panels

Corrugated perforated metal sunshade panels
